

Your task, which you have no other option but to accept, is to:

### 1. Choose a city or town in Canada (can be large or small)

### 2. Content of your Power Point Presentation

- Describe the **relative and absolute location** of the city or town.
- Describe information about your location( **Place** )both **Physical** (landforms, weather, climate and vegetation)and **Human** (population, religion, culture and language).
- Describe the **movement** of the following in your city: **goods** (how are imports and exports moved in and out of your city?), **people** (population trends and changes in where people are located), **ideas** ( how are ideas moved from person to person).
- Describe the different **regions** of your city ( industrial, commercial, residential, urban, rural, neighbourhoods i.e. language/nationality).
- Describe how **humans and the environment interact** in your city. Within your city how have people **adapted** to the environment, **modified** the environment and how do people **depend** on the environment?

### 3. What your Power Point Presentation should look like

- Must have a title page which includes your name, class period, date and overall title-with at least two graphics related to topic (be creative!! ).
- Must have a table of contents which tell which page each topic can be found.
- Must have at least one page for each of the five themes and up to a maximum of three per theme.
- Must have a bibliography page at the end that recognizes material that you have used, e.g. websites that you used to gather information and graphics/pictures
- Must ensure that any text that you add to your presentation has to be in your own words and not copied and pasted.
- Must flow fluently and not be disjointed. A reader should be able to gain an excellent understanding of your city without being troubled by unnecessary special effects. The reader must be able to navigate through the presentation easily.

**Evaluation:**

You will be graded on the quality and content of your presentation. Your finished product should reflect the effort you have put into it. Do your slides have text and visuals? Is the text in your own words and not just copied and pasted? Have you covered all the five themes of geography? Does your presentation have an effective flow and could another individual navigate through it with ease? See the rubric below
